

## How to Access Livestream

You can access all the Dekker Centre's Live Stream shows from our website:

[https://www.dekkercentre.com/live\\_streaming.html](https://www.dekkercentre.com/live_streaming.html)

### Step 1:

The link will bring you to the Dekker Centre's live streaming page where you will see a box that asks for **password required**. You will be sent your password about 24 hours ahead of the show! If you have purchased your tickets the day of the show, our staff will send you the password **as soon as we get confirmation of your order**.

### Step 2:

After entering the given password, you will see a preshow video that will start at least a half hour before the show. This will help you make sure that your sound is working, and your video is clear! If you log in before the half hour mark you will see a message saying: the show will start at the designated start time.

Please be patient as we will still be getting things set up to present the concert.

### Step 3:

Grab your favorite snack and enjoy the show!
